

Mobile Journalist (MoJo)

Equipment requirements

Apple iPhone4 | Fostex AR-4i | OlloClip | Sennheiser MKE400 | Sony UTX Wireless Mics | Headphones | Mophie JuicePack | iRigMic MonoPod or Cullmann Nanomax Tripod | iPad | Camera Conn kit |

iPhone Apps

Audio:

Fostex AR-4i | Viber | BlueFire | Skype | Monle | VC Audio Pro
Video / Stills

FilMic Pro | Vimeo | CP Pro | Justin.tv | PS Express | Qik Plus
Editing / Utilities

1st Video | iMovie | iFTP | Twitter |

Workflow (Pre-record package/clip)

- Assemble iPhone4, AR-4i and OlloClip with chosen mic on Tripod
- Place radio mics if in use, set level using headphones
- Use FilMic Pro to shoot video clips : LOCK white bal, iris and focus
- Restrict camera moves, shoot for 10 secs per shot for sequences
- Use Camera Roll to pre-trim interviews before editing

--TO EDIT

- Launch iMovie and create new project. Add Clips
- Audio mix and record VO using Ar-4i or iRigMic
- When edit is finished - export to Camera Roll.
- Launch iFTP and login to FTP Server. Upload finished edit to iPhone folder
